Entered according to an Act of Congress, in the year 1907, by R. L. Polk & Co., in the
office of the Librarian of Congress, at Washington, D. C.

INTRODUCTORY

Director

There is no city in the United States which offers more inducements as a place to live and do business in than the city of Des Moines, the Metropolis of the State of Iowa, and famous for its Railroads, Interurbans, Factories, Jobbing and Retail Houses, Banks, Schools, Colleges, Churches and Homes—Des Moines has thrived wonderfully and with every added year of prosperity and growth, its citizens have waxed even more ambitious. Today it stands upon the threshold of a new era of development and no one to pass through its prosperous looking, well kept thoroughfares, to visit its busy factories and up-to-date stores and to look upon the new buildings in course of construction could fail to be impressed with the fact that **"We are Building a City Here."**

DES MOINES HAS

POPULATION

This volume of the Directory contains 44,483 names, after deducting firms, corporations, institutions, etc; multiplying this number by 2½—the figure that is found to most accurately represent the names of women and children not included in the Directory, gives us a

POPULATION OF 102,775

Increase over Last Edition, 2,898.

The Commercial Club estimates the population at 90,000 within the city limits proper. The directory canvass has never been confined to the actual geographical limits of the City but embraces such adjoining territory as may be for all practical purposes considered a portion of the City itself. The higher estate based upon the directory canvass is thus accounted for and is unquestionably correct for the territory embraced.

STREET AND AVENUE GUIDE

EXPLANATION

IN ARRANGING "The Street and Avenue Guide" for the City of Des Moines, the following plan has been adopted (and approved by the city engineer): All streets on the west side of the Des Moines River have been designated by the same name or number alone, abolishing the prefix of west except in the case of numbered streets south of Vine, for example: Walnut, Vine, Grand av., Locust. In the case of the numbered streets, all north of Vine are designated as 1st, 2d, 4th, etc., and south of Vine, w so 1st, w so 2d, w so 3d, etc. Streets east of the Des Moines River which run through to the west side of and beyond the river are designated as e Vine, e Court av., e Walnut, e Locust, etc., the numbered streets north of Vine as e 1st, e 2d, e 3d, e 4th, etc., and south of Vine as e so 1st, e so 2d, e so 3d, etc. Streets on either side of the Des Moines river which do not run through from west to east Des Moines, are designated by their names without any prefix; for example: Maple, Buchanan, School, University, etc. If located south of the Raccoon river, the name of the street is followed by (S D M); if north of the Des Moines river (Highland Park).

The following abbreviations are used: Av for Avenue, al for alley, bet for between, boul for boulevard, D. M. for Des Moines, n for north, rd for road, s for south, w for west e for east, nw for northwest, sw for southwest, junc for junction, opp for opposite, dr for drive.

The opportunities offered in Des Moines for students to work for a portion of their expenses are numerous and remunerative. Fully one-half earn a portion of their expenses while attending the University.

Drake University always has been and still is a school pre-eminently for the poor man or woman who is willing to work for an education.

EARNEST CARDER.

505 South Eighth Street, can now see clearly after being almost blind all his life. Carder is 23 years old and really never knew how the world looked until about two months ago. He speaks of his past unfortunate circumstances as follows:

"I wish to inform those who have known me to be almost blind that I can now see not only to get around to work but to read fine print just as well. The change that has taken place in my eyes in the last four months is wonderful and seems almost like a dream. Practically all my lifetime has been spent in almost blindness, so I did not know how the world looked. The only way I could partly distinguish objects was to get them within an inch or two of my face. Now I can read fine print at 14 inches distant, which is supposed to be normal. Friends may wish to know cause of change. Dr. Lew Arntz simply made me a pair of glasses to fit my eyes, which was all that was needed to bring out the sight. Besides being almost blind I suffered from gleets on the eyes and granulate eyelid for 15 years, which has been cured by using the Arntz Eye Cure. 25 to 50c bottles had the desired effect. The eyelashes which had been falling out have come very thick and long after using the Eye Cure Respectfully,

EARNEST CARDER.

Dr. Arntz claims that Mr. Carder's eyes have always contained almost perfect sight, but that the eyeballs are so deep and misshapen that the rays of light could not be refracted upon the retina without artificial means, and hence the comparative blindness.

Looking Well, Says Rev. O. W. Catlin

Pella, Iowa, August 10, 1905.

To Whom It May Concern:

This is to certify that I am "looking" better than I did three months ago and that it is all because I am "looking" through glasses fitted to my eyes by Dr. Lew Arntz, of Des Moines, Iowa, upstairs opposite the street car station.

Now this is no joke. I have tried for several years to get the help I needed for my eyes, once in Fairfield, once in Burlington, twice in Chicago. It would take \$75 to foot the bill all told. Each time I was told that all had been done that could be, but a recommendation for Dr. Lew Arntz to do more for me than they all.

It is almost like a miracle the way he has corrected my vision. I have said as much to many of my friends as I have met them and seen their need of help. I take this way to tell many more whom I may not see until it will be too late to help them, or perhaps, not at all.

I would rather have Dr. Lew Arntz's ability to help the human vision than to be a millionaire. It is a fortune in itself besides its use it scatters blessings on every hand.

If you have any trouble with your eyes, no matter what it is, remember it will cost you nothing to have him examine them and that he will tell you just what can be done and will do it if you give him a chance. I find him very reasonable in his charges. Remember he does more than merely fit a pair of glasses; it may mean a number of the way he develops your vision. You may be sure I am glad that my experience will let me say these things and I ask my friends to take this as a personal letter. Hopefully yours,

O. W. CATLIN.

VALUE OF A HUMAN LIFE

Family ties are needed to develop the highest value of a human life. But there devolves upon anyone possessing such ties the responsibility of supporting those who have by his own choice and act the right to depend upon him. The family has a clear and indisputable interest in his earnings, and this interest extends into the future as far as they need it.

By the payment of comparatively small sums at convenient intervals, he can prevent the distress which would fall upon his dependents in case of his premature death, and he can, moreover, provide for his own future.

A perfect provision for this double protection is furnished for about

\$30 per year per \$1.000
